

Marine Research Technician

*Rutgers University Marine Field Station
Tuckerton, NJ*

Seasonal Positions Available for the 2008 field season

Must be willing to work odd hours in all weather conditions

Looking for science majors or graduates who are interested in gaining hands-on experience using a variety of marine field and laboratory techniques. Field techniques include trawling, trapping, gill netting, acoustic tagging/tracking of fish and ichthyoplankton sampling. Laboratory techniques include fish rearing, fish identification (larval and juvenile), water chemistry, and dissections. Small boat handling and computer experience a plus.

Closing date: April 4, 2008

*Send cover letter including dates of availability, resume,
and names / contact information of 3 references to:*
